Out[3]:   'As Diwali was celebrated across the country Monday, the air quality index (AQI) in the National Capital Region
           (NCR) plummeted to 'very poor', while other major cities recorded 'moderate' or 'satisfactory' air quality.Delh
           i's air quality hit the "very poor" category with an AQI of 312. This is the first 'very poor' air day of the s
           eason for the national capital.Gurgaon and Noida also recorded air quality in the 'very poor' category, with re
           spective AQIs of 322 and 305.An AQI between 301 and 400 is considered to be "very poor" and can cause respirato
           ry illness on prolonged exposure, according to the Central Pollution Control Board (CPCB).The System of Air Qua
           lity and Weather Forecasting and Research (SAFAR), meanwhile, termed the air quality across Mumbai and Pune as
           'moderate' and 'satisfactory', respectively. The CPCB recorded an AQI value of 136 yesterday, with the major po
           llutants being PM10 and PM2.5 in Mumbai.According to the CPCB, Bengaluru recorded an AQI index value of 100 wit
           h a 'satisfactory' air quality. A 'moderate' AQI value of 192 was recorded in Chennai. In lines with a Supreme
           Court order, the Tamil Nadu government had specified that crackers should only be burst from 6 am to 7 am and 7
           pm to 8 pm.The CPCB termed the air quality of the city of Kolkata as 'satisfactory' with an AQI value of 55. Th
           e major pollutants were identified as PM10 and NO2. Recently, the West Bengal Environment Minister Manas Bhuniy
           a had said the new central control room at Paribesh Bhavan is monitoring sound and air pollution in real time o
           n Diwali and Kali Puja.'

Out[7]:
'135 people died in the bridge collapse tragedy on SundayThe chief of India\'s disaster response force has thro
wn some light on what may have caused the high casualties after a cable bridge snapped in Gujarat\'s Morbi city
on Sunday, killing 135.The water towards both ends of the century-old cable bridge is shallow, about 10 feet or
the length of a small car, and the people hit the rocky bottom after falling into the river with great force, k
illing them, VVN Prasanna Kumar, the Commandant of the National Disaster Response Force (NDRF), which is part o
f the search team in the River Machhu, told NDTV on Tuesday.The middle area of the river, whose water is stagna
nt with almost no flow, is about 20 feet deep, Mr Kumar said, adding the navy divers who are searching for bodi
es effortlessly reached the bottom of the river."But the water is muddy and visibility is low," Mr Kumar said.
"We have been using an ultramodern remote underwater vehicle fitted with a camera and a sonar device to locate
bodies," the NDRF Commandant told NDTV. "The floor of the river is full of rocks. This is why many people were
injured and killed," he added.NDRF Commandant VVN Prasanna Kumar said they are using advanced tools to locate b
odiesMost of the bodies were found under the broken bridge as the river did not have any flow and the water did
not carry them away, Mr Kumar said.He said there could be only one or two bodies left to be found, based on dat
a of missing people given by the civil administration.Prime Minister Narendra Modi on Tuesday\xa0visited the ho
spital in Morbi city where the injured people are being treated. The facility got a quick-fix facelift overnigh
t ahead of his visit.The narrow cable bridge collapsed due to a huge rush of people, sources in the Gujarat for
ensics laboratory have said. Some of the old cables that held the bridge were not changed during the seven-mont
h renovation that started in March this year, sources have said.'

toi_get_content(url)
```

Out[9]:
'AHMEDABAD: In 2019, when an amusement park ride in Kankaria crashed, killing two and injuring 28, the state go
vernment tasked a seven-member committee with preparing standard operating procedures (SOPs) to enforce safety
protocols for all recreational rides. However, the SOPs were not made applicable to suspension bridges where si
ghtseers are allowed ticketed entry because the activity is not classified as \'recreational\'. Though separate
rules exist for bridges, these are mostly commuter bridges. Had Morbi\'s suspension bridge been put under the \
'recreational ride\' category, regular safety checks and accountability could have further prevented the traged
y. Read Also135 killed in Morbi bridge collapse, 170 rescued: Gujarat minister Rajendra TrivediAs many as 135 p
eople have been killed in the Morbi bridge collapse tragedy and 170 others rescued, Gujarat minister Rajendra T
rivedi said on Tuesday."All the districts have technical committees in place that inspect recreational rides an
d issue safety certificates. However, as suspension footbridges like the one in Morbi are not classified as \'r
ecreational\', despite being ticketed, the rules for amusement rides don\'t apply to bridges," said an official
in the state roads and building department who did not wish to be named. In Ahmedabad alone, between 2012 and 2
020, there have been seven major accidents at melas or temporary fairs. These include deaths caused due to elec
trocution, fall, and injuries. Read AlsoWhy govt has a lot to answer in Morbi tragedyAs the death toll in the b
ridge collapse mounted to 135, local authorities have been quick to blame the private contractor for the lapses
that led to the tragedy. But there are several questions they still need to answerThe rules that were framed by
the seven-member committee after the Kankaria disaster came into effect in February 2020 in Ahmedabad district.
The SOPs were the first of their kind; they ensured safety checks and inspection rules for recreational rides.
Later, in 2021, the state government, through a notification, asked all districts to set up similar technical c
ommittees to implement these rules. Read AlsoGujarat Morbi Footbridge: \'Renovation firm only painted, polished
cables\'"The contractor seems to have just painted and polished all the cables ahead of the bridge being reopen
ed to the public on October 26. We haven\'t found anything so far to confirm if any of those worn-out cables we
re changed," said a police officer privy to the probe. "We are now looking into thisThe seven-member committee
set up for Ahmedabad district under the chairmanship of executive engineer of roads and building department inc
luded the R&B department\'s deputy executive engineer, two teachers from LD Engineering College and Ahmedabad P
olytechnic, and officials of the industrial health and safety department and municipal corporation\'s engineeri
ng department. So far, the committee has inspected and issued safety certificates to 16 amusement rides in the
city. The suspension bridges were excluded from the purview of these committees, said roads and buildings depar
tment sources. The state government could have set up a separate system to ensure safety inspections of such st
ructures, they said. Read AlsoGujarat: Morbi tragedy exposes rot in civic systemThe Morbi tragedy has exposed t
he rot in civic institutions and their failure to ensure safe and reliable infrastructure. The contractor, Orev
a group, was to approach the district collector for a structural safety certificate before beginning operations
on October 26.Sources added that for the inspection of bridges, the operator is required to apply to the collec
tor\'s office and then the R&B department issues structural stability certificates after inspection. The govern
ment is yet to set up SOPs for these bridges, the sources added. '

'CONNECT WITH US November 01, 2022 10:14 pm | Updated November 02, 2022 12:37 pm IST - SRINAGAR \nCOMMents\n SHARE\n\nREAD LATER\n\nSecurity personnel stand guard near encounter site at Samthan Bijbehara area of Anantnag in South Kashmir on November 1, 2022.\n| Photo Credit: Nissar Ahmad\nFour militants were killed in two separate anti-militancy operations in south Kashmir's Anantnag and Pulwama districts on Tuesday, and a likely " fidayeen " (suicide) attack in the Valley, the J&K Police said."Lashkar-e-Taiba (LeT) commander Mukhtar Bhat is among the three killed terrorists [in Pulwama's Awantipora area]. As per source, he, along with a foreign terrorist, was going for ' fidayeen' attack on security forces' camp. The\xa0Awantipora police and the Army averted a major terror incident," Additional Director General of Police Vijay Kumar said.\xa0One AK-47 rifle, one AK-56 rifle and one pistol were recovered from the encounter site at Pulwama's Awantipora.Mr. Kumar said Bhat was involved in several terror crimes, including the killing of one Assistant Sub-Inspector of the Central Reserve Police Force and two Railway Protection Force personnel. "It's a big success for us," Mr. Kumar said.The third deceased person, believed to be a local, could not be identified immediately.The militant killed in another anti-militancy operation in Anantnag's Bijbehara has been identified as Shakir Ahmad, a resident of Ladermud. "One terrorist has been killed in the Bijbehara encounter. The operation is going on," the police said, adding, "The killed terrorist was linked with Hizbul Mujahideen and was involved in several terror crime cases, including attacks on police and security forces."\xa0Meanwhile, the J&K Police arrested three militants in Srinagar. "10 kilogrammes bucket Improvised Explosive Device (IED) and two hand grenades were recovered from these militants. The IED is being destroyed in-situ in the Rangreth area by the Bomb Disposal Squad. A case has been registered under Sections of the Unlawful Activities Prevention Act, Arms Act, and Explosives Act," the police said.\xa0\nCOMMents\n'
